INTRODUCTORY PRESENTATION

www.itf-finance.com

ABOUT US

- ITF executive team of Regional Directors are located in over 40+ cities worldwide to support our clients globally. Each director has an average of 15-20 years experience in international trade and finance, law, logistics, banking, and/or private business, and is very well connected to help identify and recommend buyers and dealers, partners and financial contacts to support transactions.
- Specialized in working closely with EPC partners to integrate financing into the project development process for airports, large commercial farming and food processing, water infrastructure, energy production and general construction.
- 85 countries of coverage supported by ITF Regional Directors' area of responsibility (AOR)
- Network of over 300 banks and financial institutions including banks, leasing companies, over 35 ECA's and private credit insurers, investment funds, family houses, factoring/forfeiting companies and multilateral development banks
- \$4.7 billion of transactions under management

JOHN DEERE

www.johndeere.com

JOHN DEERE

John Deere is a globally renowned American corporation specializing in agricultural, construction, forestry, and turf care machinery, as well as innovative technology solutions. Founded in 1837, the company has become a leader in manufacturing durable and efficient equipment, including tractors, combines, loaders, and mowers. John Deere emphasizes sustainability, precision agriculture, and smart farming technologies, offering advanced tools such as GPS-enabled systems, autonomous machinery, and IoT-based solutions to enhance productivity. Headquartered in Moline, Illinois, John Deere operates worldwide, serving farmers, construction workers, and landowners with a commitment to integrity, quality, and innovation.

More than 100 years of service

INTEGRATED TRADE FINANCE

AGRICO is a deep-rooted and strong irrigation company. For more than 100 years, it has faithfully served growers across the continent by providing them with the best technical solutions, irrigation systems and components, as well as ongoing support. As the largest irrigation provider in Southern Africa, Agrico embodies a wealth of knowledge and experience, with extensive design capabilities and first-class service. More than 40 agencies with walk-in shops offer a wide range of quality and affordable irrigation components.

Agrico designs and supplies all types of irrigation systems and specializes in turnkey water supply projects. We build long-term relationships and offer excellent service to producers across Africa.

INTEGRATED TRADE FINANCE

Insta-Pro International

Based in Grimes, Iowa, Insta-Pro International develops industry-leading equipment for producing chemical-free livestock and poultry feeds, vegetable oils and soy food products.

- Holds the ExPress® trade secrets & brand
- World leader of high-shear dry extrusion
- Nutritional expert in extruded ingredients since invention in 1969
- 50+yrs of university research verifying nutritional benefits and improved animal performance

Nurturing Every Bit of Good

Insta-Pro International fuels higher-performing animals through chemical-free processing for growth-minded feed producers who invest in quality.

- **Develop industry-leading equipment for producing chemical-free feed ingredients, vegetable oils and soy food products**
- **Partner with university and independent researchers to optimize nutritional value for ultimate animal performance**
- **Committed to leading the industry around the world in continuously improving quality, output and efficiency**

Equipment Designed to Operate for Decades

9000 Series Extruder

- Generate heat through friction to cook, expand, sterilize & stabilize ingredients
- Chemical-free processing
- Optional: Pre-conditioner for Full-Fat Soy production

8008 Series Oil Press

- Use with 9000 extruder to create the ExPress® System for producing mechanically extracted oils & meals for use in feed & food
- Motors exceed industry vibration standards

Parts

- USA built parts with long-lasting reliability
- Warehoused around the globe to expedite delivery
- Uniform precision machining to insure precise fit

Points of Difference

Commitment to quality & performance for over 50 years

Superior Nutrition through Engineered Innovation

DURABILITY

Precision-built equipment with premium components

- 100% internal parts machined
- 45% harder parts vs. competitors, giving up to 10x longer part life
- Motors exceeding industry vibration standard by 47%
- Shaft steel 23% greater vs. standard
- Bolts & fasteners of highest grade & quality
- 100% of equipment tested

CONSISTENCY

Controlled and optimized parameters through process expertise

- Consistent results 24/7
- Achieving 325°F cooking
- PSI up to 1880
- Dwell time < 20 seconds
- 85% de-activation of Anti-Nutritional Factors (ANF)

PERFORMANCE

Animals don't lie: produce greater nutrient digestibility

- Broiler to market weight: 2–4 days earlier
- Egg weight: 6 weeks earlier
- Produce 1 liter more milk/head/day, while reducing diet cost up to \$.22/head/day
- 20% greater total digestible by-pass protein vs. mechanical competitors
- 6.1% more available lysine and 3% more available energy vs. mechanical competitor

IRRIGATION 4.0

Ocmis is the greatest global constructor of advanced systems for agricultural irrigation and green spaces.

We design and produce irrigation machines and we are famous worldwide for our self-propelling irrigators known as “Rollers”.

We have been the first company in Italy to respond to agriculturalists' real needs. Year after year, our efforts in terms of investments and strategic choices have resulted in a constantly growing number of our systems present worldwide.

ABOUT IRRIMEC

Established in 1974 and headquartered in Piacenza, Italy, Irrimec Group, is specialised in the design, manufacture and commercialisation of mechanical irrigation systems. The group includes French businesses Otech and Otech 40.

INTRODUCTION

Brown & Co is an independent partnership specialising in Agri Business consultancy, advisory, brokerage and valuation services for clients across the agricultural sector.

With 300 dedicated staff (of which 30 are full-time agriculturalists and over 35 are agricultural property professionals) Brown & Co is the only RICS accredited Agri Consultancy with a presence and activities in UK, Europe, North and South America and Africa.

Since 2003, Brown&Co has had a managerial or advisory role on over 1m ha / \$5 billion of farmland.

ADDING VALUE THROUGH 25+ YEARS EXPERIENCE IN THE AGRIBUSINESS SECTOR

AGRI CONSULTANCY/ RESTRUCTURING

Hands on – practical experience

ANALYSIS

- Enterprise Gross Margin/ Net Margin analysis together with assessment of yields, sales prices achieved, direct costs, indirect costs, depreciation, interest – and Net Profit assessment on a sub sector/ enterprise basis.
- Review of resources available and if they are „fit for purpose“ e.g. Machinery & Equipment, storage infrastructure, warehousing, grading/ processing equipment.
- Benchmark physical and financial results against Best in class.

ASSESSMENT

- Review with Management team to identify weaknesses in both technical performance and financial performance.
- Identification of cost overruns/ enterprise underperformance and reasons why.

ACTION

- Financial Modelling of improvements to be made to assess Net Margin performance/ Cashflow/ P&L effects along the value chain. Comparison of „with change“ financial model and „existing system“ financial model.
- Identify investment requirements and carry out robust investment return calculations before stress testing.
- Implement change – and follow up with Management team to take regular corrective action.

Independent assessment

team's track record,
past performance and
history

Brown & Co provide feasibility assessments (and pre-feasibility assessments) on a wide range of sub sectors and across all geographies. Typically, the assessment breaks down into:

Casting the net wide

Staying on top of the market is not just about being aware of the latest assets but also keeping track of all market activity to truly understand value. Brown & Co has an extensive track record of sourcing high quality assets/ business' on behalf of investors and representing their interests through the acquisition process.

MONITORING

- Local agent and intermediary networks – everyday work.
- Professionals' networks – accountants and lawyers.
- Established client base – existing farming enterprises.
- State sell offs .
- Structural Disposals from large scale vertical holdings.

ACTIVE PURSUIT OF OPPORTUNITIES

- Many developing markets are inefficient and require pro-active pursuit of opportunities.
- Contact network absolutely key.
- Dedicated resources that are examining opportunities all the time
- Regular meetings with regional agents and intermediaries on a regular basis.

CONTROL MEASURES

- Database tracking – build on existing database used to keep track of land and contacts.
- Weekly agency meetings - healthy debate of strategy and market trends.
- Monthly progress reports – to demonstrate pipeline development and transparency.
- Scoring system - to prioritise opportunities.

5 Business Principles at DESMET

Reliability

Our skilled engineering and insistence on quality enable high plant uptime, thus protecting processor profitability.

Accessibility

Our global network of offices ensures a close and reliable partner for project execution and ongoing plant operation.

Sustainability

Our plants are designed for lowest utility, water and chemical consumption to minimize operating cost and enhance sustainability.

Innovation

Our continuous investment in R&D ensures that we provide effective plants today which are prepared for the industry challenges of tomorrow.

Value-minded

Our global engineering centers in Europe and India along with extensive global sourcing & manufacturing delivers value.
